

INTERNATIONAL EXPERT

AND EDUCATOR TO HEADLINE PATHOLOGY VISIONS CONFERENCE

International expert and educator in genitourinary pathology, Dr. Mahul B. Amin, will headline this year's Digital Pathology Association's annual Pathology Visions Conference. This is the 7th year for the international conference, which will be held Oct. 30 - Nov. 2, 2011 in San Diego, CA at the Manchester Grand Hyatt.

“We are honored to have Dr. Amin, a recognized pathology leader, as the keynote speaker at this year’s Pathology Visions Conference,”

Dirk Soenksen, President of the DPA & Pathology Visions Program Committee Chair

Dr. Amin's keynote address will examine the contributions, strengths and limitations of light microscopy, review the traditional role of the pathologist in contemporary health care, and outline "personalized medicine" as it relates to the discipline of pathology. Dr. Amin is the Chairman and Professor of the Department of Pathology and Laboratory Medicine at Cedars-Sinai Medical Center and a national and international consultant in tumors of the genitourinary tract including prostate, urinary bladder, kidney and testis.

The Pathology Visions Conference will also feature more than 35 additional distinguished speakers who will share their breadth of digital pathology knowledge in the clinical, research and education arenas. Plus, there will be two and a half days of cutting-edge industry workshops, an extensive exhibit hall filled

with the latest product solutions, access to white paper sessions, roundtable discussions, scientific poster sessions, and networking events.
