Dear Readers,

We were very pleased with last month's program attendance. Not surprisingly, Dr. Lester Thompson, expert pathologist and prolific speaker and author, drew a large crowd for what turned out to be one of the most enlightening and entertaining programs in recent history. Our members and guests were quick and generous with their compliments, and we, in turn, thank Dr. Thompson for his exceptional contribution to our academic series.

Next month, we are proudly hosting the annual Resident Symposium, to be held on May 12th. We received many outstanding submissions from all programs and the selection process was no easy task. In the end, we are pleased to offer a "potpourri of pathology" presented by enthusiastic residents and fellows. Historically, this has been one of our most popular programs, so we encourage all of you to attend and support our junior members.
